14, 15 & 16 June 2013
University of Florida
About the Program

Description

Our 2013 program is designed to bring current UF Obstetric and Gynecology faculty and residents, together with alumni for continuing medical education, clinical healthcare and research collaboration. Continuing medical education course materials will provide the private and academic practitioner, and scientists, up-to-date, relevant, and essential information that can be used immediately to improve medical training and mentoring of residents and medical students, and obstetric and gynecologic healthcare for women globally.

Learning Objectives

- Identify the differences between “teaching” and “mentoring”
- Review the principal characteristics of effective mentoring
- Define why mentoring is so important in an individual’s career development
- Review how culture influences medical practice
- Define the culture challenges facing an ObGyn in the Middle East
- Describe the physician’s adaptability in order to cope with cultural challenge
- Review approaches to gynecologic challenges/emergencies
- Review approaches to obstetric challenges/emergencies
- Translate first world ob/gyn lessons to third world ob/gyn practices
- Translate third world ob/gyn lessons to first world ob/gyn practices
- Review the Affordable Care Act
- Define an Integrated Healthcare System
- Recognize the paradigm of healthcare delivery is changing rapidly

Accreditation/Credits

Accreditation: The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit: The University of Florida College of Medicine designates this live activity for a maximum of 8 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
